Advanced Change Notification No: 2607 Rev.A

Subject: **Obsolescence of all valid combinations of the products listed below**

This is revision A to ACN 2607 originally distributed on May 11, 2006. It is being revised to clarify and correct the packages and the ordering part numbers (OPNs) affected. The following modifications have been made.

- The reverse TSOP packages have been removed from the Product Identification and the OPNs have been removed from the Products Affected by This Changes as they have already been obsoleted in ACN 2546 distributed on December 15, 2005.**
- The Note and the OPNs in bold in the Products Affected By This Change have been added. The introductory paragraph has been updated to clarify that all valid combinations of the products listed are affected.**
- The Fujitsu MBM part numbers have been corrected in the Potential Replacement Parts.**
- The US Product Marketing contact phone numbers have been updated in the Potential Replacement Parts section to reflect their new numbers.**

The changes are in bold below.

Spancion is announcing the obsolescence of **all valid combinations** of products listed below. See below for details:

Product Line: Spansion™ products

Reason for Obsolescence: These products are being removed from Spansion’s product portfolio in response to low market demand and/or gravitation towards their equivalents based on next generation process technologies. Rationalization of the product portfolio enables Spansion to better service customer requirements via improved operational efficiencies.

Application Impact: The below products will no longer be offered. Recommended replacement products are listed below.

Potential Replacement Parts: Please reference the below table for recommended replacements.
